

California Alternate Assessments for English Language Arts/Literacy and Mathematics

WHAT ARE THE ALTERNATE ASSESSMENTS?

The California Alternate Assessments (CAAs) for English language arts/literacy (ELA) and mathematics are part of California's state testing program called the California Assessment of Student Performance and Progress (CAASPP). Designed for students with the most significant cognitive disabilities, the CAAs for ELA and mathematics are an annual measure of what students know and can do using alternate achievement standards. Known as the Core Content Connectors, these standards are aligned with the Common Core State Standards for ELA and mathematics.

WHY ARE THE CAAs GIVEN?

The purpose of the CAAs for ELA and mathematics is to measure what students with the most significant cognitive disabilities know and can do. These measures help identify and address gaps in knowledge or skills so students get the support they need.

WHO TAKES THE CAAs?

Students are eligible to take the CAA only if it is indicated in their active individualized education program (IEP) by the IEP team.

The CAAs for ELA and mathematics will be administered to all eligible students in grades three through eight and grade eleven.

HOW ARE THE CAAs GIVEN?

The CAAs are administered one-on-one by a trained test examiner who is familiar with the student and his or her needs.

The CAAs are computer-based and are stage-adaptive, adjusting the level of difficulty to the student's performance at selected stages within the test. Student results are reported as one of three performance levels.

WHEN ARE THE ALTERATE ASSESSMENTS GIVEN?

JUL AUG SEPT OCT NOV DEC JAN FEB MAR APR MAY JUN JUL

The CAAs for ELA and mathematics are administered from January through the last day of a local educational agency's selected testing window or the last day of instruction.
